March 12, 2010

Dear Isha and Rani,

Your presentation to us today on wet cleaning as an alternative to drycleaning was both interesting and thought-provoking.

We were impressed with all of the supporting materials as well. The handouts were nicely done, and the Web site you have constructed is an indication of how much work you have done on the project. The completeness of the site was evident and impressive.

We will mention this presentation during the Board of Selectmen meeting this coming Monday and we will mention the Web site as well.

Good luck in your presentation on Sunday. We are sure you will do well. And both of us will be paying more attention to how our clothes are cleaned in the future.

Sincerely,

Norman Cohen, Chairman

Hank Manz
